

HUMAN Lab® DAC Series

Baskets

1 Features

- ▶ Vertical loading maximizes usable chamber space
- ▶ Casters and flexible plumbing make sterilizers completely mobile
- Our compact portable digital autoclave are ideal for laboratories that share equipment.
- Designed with rolling casters for excellent mobility and easy storage - just push into a storage room when not in use to make room in your lab.
- Top mounted stainless steel door also saves space in your lab and provide easy loading
- The digital autoclave feature fully automated operation.
- Simply place your load in the pressure chamber and enter all parameters with the easy-to-use keypad.
- The LCD display shows set and actual temperature as well as set time remaining.

2 Specifications

Model	DAC-45	DAC-60	DAC-80	DAC-100
Capacity	45 liter	60 liter	80 liter	100 liter
Chamber size (DxL)	300 x 630 mm	350 x 630 mm	400 x 650 mm	450 x 650 mm
Temp. range	105 - 125 °C ±0.5 °C / Sterilizing : 121 °C			
Timer	Digital, 99hr/59min			
Material	Interior	Stainless steel		
	Exterior	Steel plate with powder coating		
	Basket	Stainless steel , full length x 1 and half length x 1		
Control & Display	Microprocessor PID controller & digital LED display			
Operation Pressure	1.15 bar (Gauge : 0 - 3 Kg/cm²)			
Safety Device	Pressure safety valve, Over current protector, Over temp. limiter, Low water level switch			
Power source	220VAC, 50/60Hz			
Overall (WxDxH)	530x700x950 mm	530x750x950 mm	750x600x950 mm	850x650x980 mm
Weight (Kg)	75	100	110	120

3 Options : Programmable control
